- ✓ Captan on German Gala Apples and UK Cox Apples.
- ✓ Carbendazim on German Gala Apples
- ✓ Thiabendazole on Spanish citrus.
- ✓ Dimethoate on Spanish peppers.
- ✓ Aminocarb on Egyptian Spring onions.

### **No restrictions.**

- ✓ None of our unrestricted pesticides were found.

## Residue Levels

# March 2008

## Overall

We found 6 residues in 6 of 23 samples, **none of which was above the MRL\***.  
17 samples were residue free.

## Specific Residues

### **Co-op Prohibited Pesticides and those above the MRL\***

- ✓ None of our banned pesticides were found.
- ✓ None of the residues found were above the Mrl.

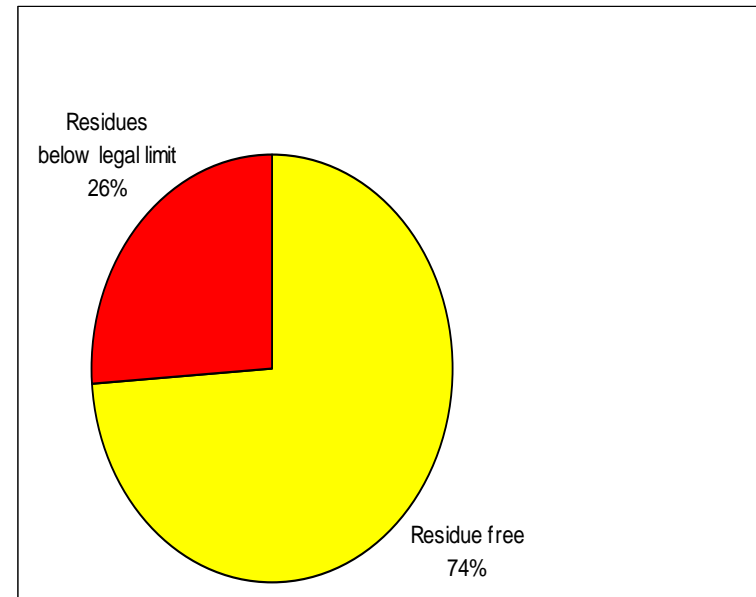

### **Monitored**

- ✓ Thiabendazole on Egyptian Navel Oranges.
- ✓ Chlorpyrifos on Spanish Lemons.
- ✓ Captan on French Golden Delicious, Belgium Family Pack and German Braeburn.

### **No restrictions.**

- ✓ Chlorpropham on UK potatoes.

## Residue Levels

# April 2008

## Overall

We found 20 residues in 10 of 25 samples, **none of which was above the MRL\***.  
15 samples were residue free.

## Specific Residues

### **Co-op Prohibited Pesticides and those above the MRL\***

- ✓ None of our banned pesticides were found.
- ✓ None of the residues found were above the Mrl.

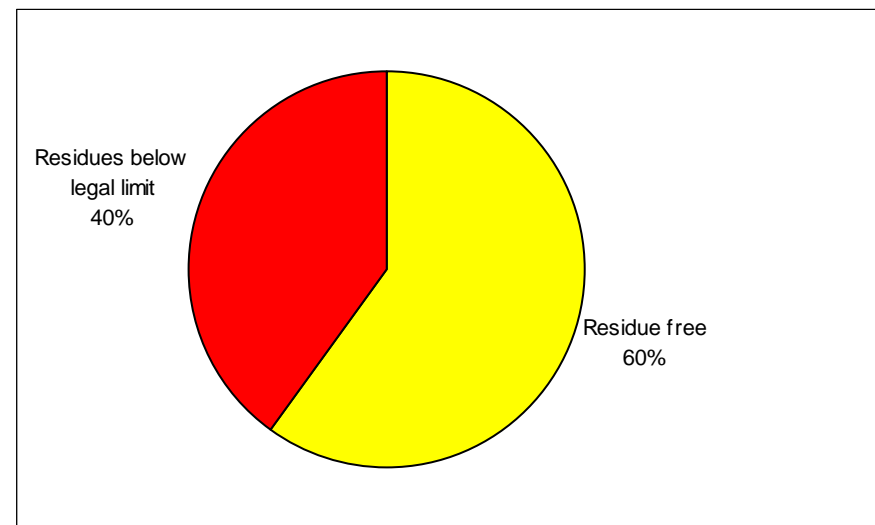

### **Monitored**

- ✓ Thiabendazole on Peruvian Mangoes, Spanish Oranges, French Pink Lady apples
- ✓ Prochloraz on Peruvian Mangoes, Brazilian Limes.
- ✓ Procymidone on S.A. grapes.
- ✓ Chlorpyrifos on Spanish citrus.
- ✓ Imazalil on Spanish Citrus.
- ✓ Captan on French Pink Lady apples.

### **No restrictions.**

- ✓ Chlorpropham on Israeli and UK potatoes.
- ✓ 2 phenyl phenol on Brazilian Limes, Spanish oranges.

## Residue Levels

# May 2008

## Overall

We found 13 residues in 5 of 15 samples, **none of which was above the MRL\***.  
10 samples were residue free.

## Specific Residues

### **Co-op Prohibited Pesticides and those above the MRL\***

- ✓ None of our banned pesticides were found.
- ✓ None of the residues found were above the Mrl.

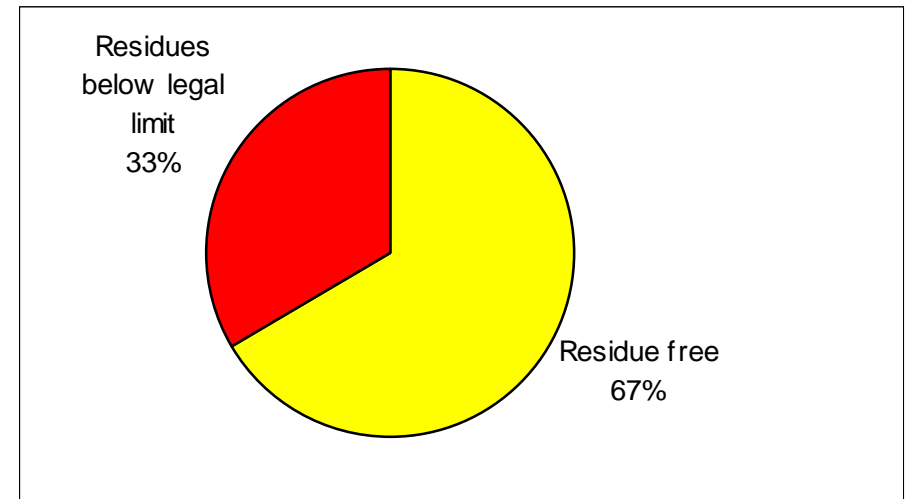

### **Monitored**

- ✓ Carbendazim on South African Gala Apples.
- ✓ Captan on South African Gala Apples.
- ✓ Thiabendazole on USA Pink Lady Apples, Argentinian Satsumas.
- ✓ Imazalil on Argentinian Satsumas.
- ✓ Malathion on Argentinian Satsumas.
- ✓ Pirimicarb on Spanish Cherries.
- ✓ Propyzamide on UK round lettuce.
- ✓ Cypermethrin on UK round lettuce.
- ✓ Iprodione on UK round lettuce.

### **No restrictions.**

- ✓ Fenitrothion on South African Gala Apples.
- ✓ Diflubezuron on USA Pink Lady Apples.
- ✓ 2 phenyl phenol on Argentinian Satsumas.

## Residue Levels

# June 2008

## Overall

We found 13 residues in 8 of 18 samples, **none of which was above the MRL\***.  
10 samples were residue free.

### Specific Residues

#### **Co-op Prohibited Pesticides and those above the MRL\***

- ✓ None of our banned pesticides were found.
- ✓ None of the residues found were above the Mrl.
