

How Are We Doing? Oct 2011

Overall

20 samples were tested (at an average of 452 per product), we found 42 residues. In total, we found residues in 15 samples, leaving 5 which were residue free. We found no banned pesticides.

Specific Residues

We found 2 conventional residues in our Organic rocket, this was re-tested and was clear, we have moved to a more frequent level of testing.

Co-operative Prohibited Pesticides

Country	Produce Type	Pesticide
UK	Lettuce	Thiamethoxam (approved derogation) Imidacloprid (approved derogation)

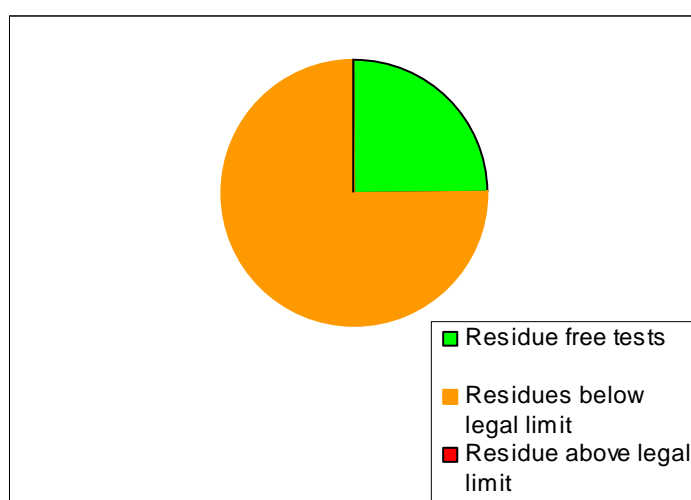

Co-operative Monitored Pesticide

Country	Produce Type	Pesticide
Spain	Grape	Deltamethrin, Metalaxyl, Thiocloprid
UK	Cabbage	Dithiocarbamates, Thiocloprid,
UK	Lettuce	Iprodione, Propyzamide,
Uruguay	Orange	2- phenylphenol, Imazalil, Pyrimethanil
Spain	Satsumas	Imazalil, Chlopyrifos
UK	Bagged Salads	Iprodione, Lambda Cyhalothrin, Cypermethrin, Deltamethrin.
Italy	Organic Rocket	Deltamethrin, Propamocarb
France	Braeburn apples	Chlopyrifos, Thiocloprid

Co-operative No restriction pesticides

Country	Produce Type	Pesticide
---------	--------------	-----------

UK	Carrots	Boscalid
Spain	Grapes	Cyprodinil, Dimethomorph, Trifloxystrobin.
UK	Lettuce	Boscalid, Azoxystrobin, Propamocarb, Pyraclostrobin,
Holland	Tomatoes	Flonicamid, Spiromesifen
UK	Carrot	Boscalid
UK	Potatoes	Chlorpropham
UK	Bagged Salads	Boscalid, Propamocarb, Pyraclostrobin, Spinosad.

How Are We Doing? Sept 2011

Overall

11 samples were tested (at an average of 452 per product), we found 26 residues. In total, we found residues in 6 samples, leaving 5 which were residue free.

We found 2 exceedances of MRL on Dimethoate and Omethoate within one sample of French apples, we have subsequently stopped taking from that grower in the future.

Specific Residues

Co-operative Prohibited Pesticides

Country	Produce Type	Pesticide
France	Apples	Carbendazim (unapproved derogation) Propargite (approved)

		derogation)
--	--	-------------

Co-operative Monitored Pesticide

Country	Produce Type	Pesticide
France	Apples	Chloryriphos, Dimethoate , Omethoate , Thiaclopid, Tebufenpyrid
Spain	Tomatoes	Dithiocarbamates
Belgium	Pears	Captan, Dithiocarbamates

Co-operative No restriction pesticides

Country	Produce Type	Pesticide
Greece	Grapes	Spiroxamine, Mandipropamid
Chile	Frozen Mixed veg	Azoxystrobin
	Kiwi Fruit	Fenhexamid
Spain	Tomato	Chlorpyrifos methyl

How Are We Doing?
Aug 2011

Overall

18 samples were tested (at an average of 452 per product), we found 26 residues. In total, we found residues in 11 samples, leaving 7 which were residue free.

Specific Residues

We found 1 residue of Dieldrin (banned list) within our Courgettes, once again the crop had NOT been sprayed with this chemical the cause was environmental background (previous cropping applications). All subsequent crops were tested before being harvested.

Co-operative Prohibited Pesticides

Country	Produce Type	Pesticide
UK	Lettuce	Imidacloprid (approved derogation)
South Africa	Grapefruit	Imidacloprid (approved derogation)

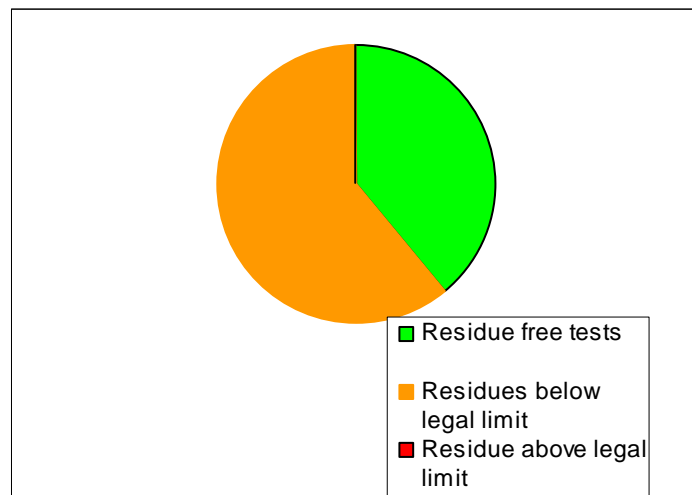

Co-operative Monitored Pesticide

Country	Produce Type	Pesticide
UK	Strawberries	Iprodione, Primicarb, Thiacloprid, Pyrimethanil.
UK	Broccoli	Dithiocarbamates
UK	Blackberry	Thiacloprid
South Africa	Grapefruit	Imazalil
UK	Tomatoes	Iprodione
UK	Broccoli	Dithiocarbamates
Ghana	Pineapple	Triadimenol, Triadimefon

Co-operative No restriction pesticides

Country	Produce Type	Pesticide
UK	Strawberries	Azoxystrobin, Cyprodinil, Fenhexamid, Myclobutanil
UK	Raspberries	Fenhexamid,
UK	Blackberry	Boscalid, Fenhexamid, Pyraclostrobin

South Africa	Grapefruit	Trifloxystrobin
--------------	------------	-----------------

How Are We Doing? July 2011

Overall

11 samples were tested (at an average of 452 per product), we found 18 residues, one sample of Coriander was found with an exceedance of Pendimethalin, we stopped supply for 3 weeks then as below this was moved to testing before harvesting until the end of the season.

In total, we found residues in 7 samples, leaving 4 which were residue free.

Specific Residues

One sample of Cut Coriander had DDT a banned residues, these were from environmental background (previous cropping applications) and had not been applied to the crop. All subsequent crops were tested before being harvested.

Co-operative Prohibited Pesticides

Country	Produce Type	Pesticide
UK	Coriander	Linuron (unapproved derogation)
UK	Coriander	Trifluralin (unapproved derogation)

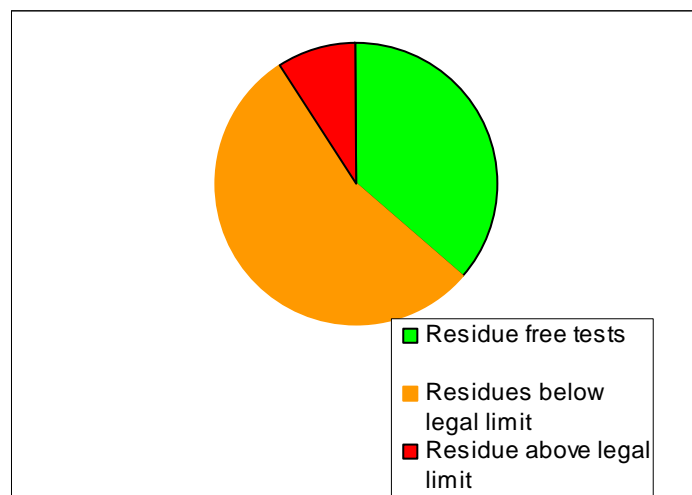

Co-operative Monitored Pesticide

Country	Produce Type	Pesticide
NZ	Braeburn Apples	Captan
UK	Blackberry	Thiacloprid

Italy	Nectarines	Etofenprox, Tebuconazole
UK	Coriander	Pendimethalin

Co-operative No restriction pesticides

Country	Produce Type	Pesticide
UK	Blackberry	Azoxystrobin, Boscalid, Fenhexamid, Pyraclostrobin
UK	Crinkle Cut chips	Chloropham
UK	Baby Leaf Mix	Boscalid
UK	Cucumber	Cyprodinil, Pymetrozine.
UK	Coriander	Boscalid, Pyraclostrobin

How Are We Doing? June 2011

Overall

17 samples were tested (at an average of 452 per product), we found 8 residues, no samples were found above the MRL

In total, we found residues in 4 samples, leaving 13 which were residue free.

Specific Residues

None of our banned pesticides were found.

Co-operative Prohibited Pesticides

Country	Produce Type	Pesticide
---------	--------------	-----------

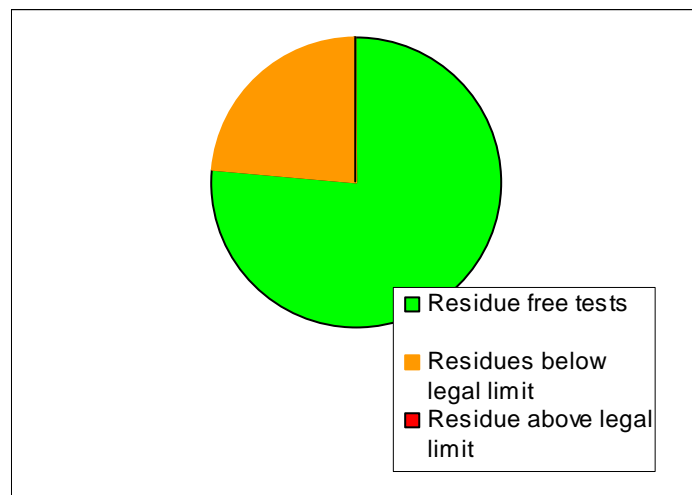

South Africa	Pink Lady apple	Propargite (approved derogation)
--------------	-----------------	----------------------------------

Co-operative Monitored Pesticide

Country	Produce Type	Pesticide
Brazil	Gala Apples	Dithiocarbamates, Iprodione
South Africa	Pink Lady apple	Thiacloprid, Iprodione.
UK	Pears	Iprodione

Co-operative No restriction pesticides

Country	Produce Type	Pesticide
UK	Potatoes	Chlorpropham
South Africa	Pink Lady apple	Diphenylamine

How Are We Doing?
May 2011

Overall

22 samples were tested (at an average of 452 per product), we found 29 residues, one sample of Indian Grapes was found with an exceedance of Chlormequat, this batch was isolated and the grower was not used again during the season.

In total, we found residues in 14 of 22 samples, leaving 8 which were residue free. We tested 5 samples of Indian Grapes during this period.

Specific Residues

None of our banned pesticides were found.

Co-operative Prohibited Pesticides

Country	Produce Type	Pesticide
India	Grapes	Imidacloprid (approved derogation)
Spain	Cherries	Imidacloprid (approved derogation)
Chile	Grapes	Imidacloprid (approved derogation)
India	Grapes	Carbendazim (approved derogation)

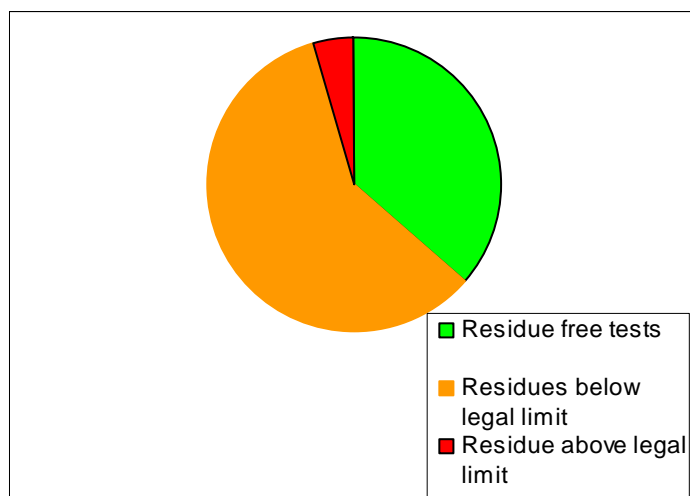

Co-operative Monitored Pesticide

Country	Produce Type	Pesticide
UK	Tomatoes	Pirimicarb
Chile	Grape	Tebuconazole
Costa Rica	Pineapple	Triadimenol, Triadimefon
India	Grape	Chlorpyrifos
Egypt	Orange	Imazalil, Malathion, Thiabendazole
Ghana	Pineapple	Prochloraz
S.African	Avocados	Prochloraz

Co-operative No restriction pesticides

Country	Produce Type	Pesticide
India	Grapes	Chlormequat, Famoxadone,
Italy	Kiwi fruit	Fenhexamid
UK	Tomatoes	Cyprodinil, Fludioxinil.

Chile	Grapes	Boscalid, Fenhexamid.
-------	--------	-----------------------

How Are We Doing? April 2011

Overall

Out of 7232 tests (at an average of 452 per product), we found 44 residues, none of which was above the MRL*.

In total, we found residues in 13 of 16 samples, leaving 3 which were residue free. We tested 5 samples of Indian Grapes during this period.

Specific Residues

None of our banned pesticides were found.

Co-operative Prohibited Pesticides

Country	Produce Type	Pesticide
India	Grapes	Imidacloprid (approved derogation)
Chile	Grapes	Imidacloprid (approved derogation)

Co-operative Monitored Pesticide

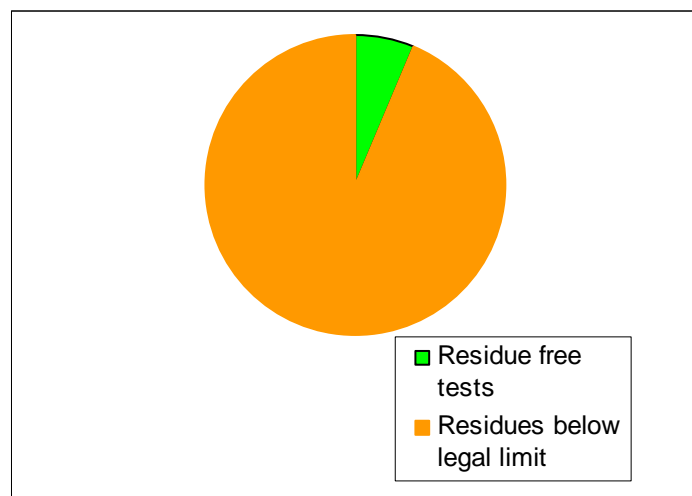

Country	Produce Type	Pesticide
Spain	Little Gem Lettuce	Acetamiprid, Iprodione
Spain	Romaine Lettuce	Imidacloprid
UK	Royal Gala Apple	Captan, Chlorpyrifos

Chile	Grapes	Iprodione
UK	Braeburn Apples	Indoxacarb, Tebufenpyrad
India	Grapes	Chlorpyiphos, Kresoxim Methyl
India	Pineapple	Kresoxim Methyl

Co-operative No restriction pesticides

Country	Produce Type	Pesticide
India	Grapes	Azoxystrobin, Chloromequat, Famoxadone, Myclobutanil, Iprovalicarb
UK	Royal Gala Apple	Boscalid, Pyraclostrobin
UK	Carrots	Boscalid, Prosulfacarb
Chile	Grapes	Boscalid, Fenhexamid, Pyraclostrobin
Spain	Little Gem Lettuce,	Fenhexamid
UK	Braeburn Apples	Boscalid, Myclobutanil, Pyraclostrobin
Spain	Romaine Lettuce	Fenhexamid

April Residue levels

How Are We Doing? March 2011

Overall

Out of 7684 tests (at an average of 452 per product), we found 21 residues, none of which was above the MRL*.

In total, we found residues in 15 of 17 samples, leaving 2 which were residue free.

Specific Residues

None of our banned pesticides were found.

Co-operative Prohibited Pesticides

Country	Produce Type	Pesticide

Co-operative Monitored Pesticide

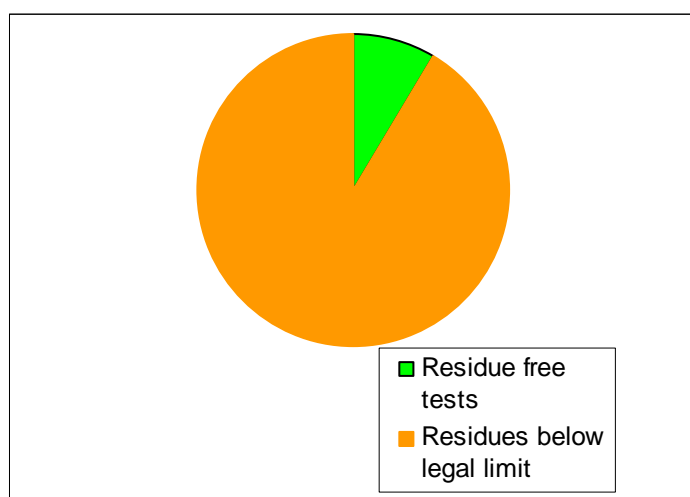

Country	Produce Type	Pesticide
n/a	Basmati Rice	Triazophos
n/a	Healthier Choice Rice & Wheat Flakes	Deltamethrin, Piperonyl Butoxide, Pirimiphos methyl.
n/a	Chicken Jalfrazi ready meal	Imidacloprid
n/a	Chicken Tikka Massala ready meal	Imidacloprid, Triazophos
n/a	Pilau Rice	Imidacloprid
n/a	Basmati rice	Imidacloprid

Co-operative No restriction pesticides

Country	Produce Type	Pesticide
n/a	Easy Oats	Chlormequat
n/a	Oat Cakes	Chlormequat
n/a	Chicken Korma	Isoprothiolane
n/a	Chicken Jalfrazi	Isoprothiolane
n/a	Long Grain Rice	Isoprothiolane

UK	Plain White Flour	Chlormequat
UK	Scottish Porridge Oats	Chlormequat
UK	Malt Crunchies	Chlormequat
UK	Pizza Base Mix	Chlormequat
UK	White Tin Loaf Bread	Chlormequat
n/a	Pilau Rice	Isoprothiolane
n/a	Basmati Rice	Isoprothiolane

March Residue levels

How Are We Doing? **Feb 2011**

Overall

Out of 6780 tests (at an average of 452 per product), we found 26 residues, none of which was above the MRL*.

In total, we found residues in 11 of 15 samples, leaving 4 which were residue free.

Specific Residues

None of our banned pesticides were found.

Co-operative Prohibited Pesticides

Country	Produce Type	Pesticide
UK	Iceberg Lettuce	Thiamethoxam (approved derogation)
Spain	Round Lettuce	Imidacloprid (approved

		derogation)
UK	Parsnip	Linuron (approved derogation)

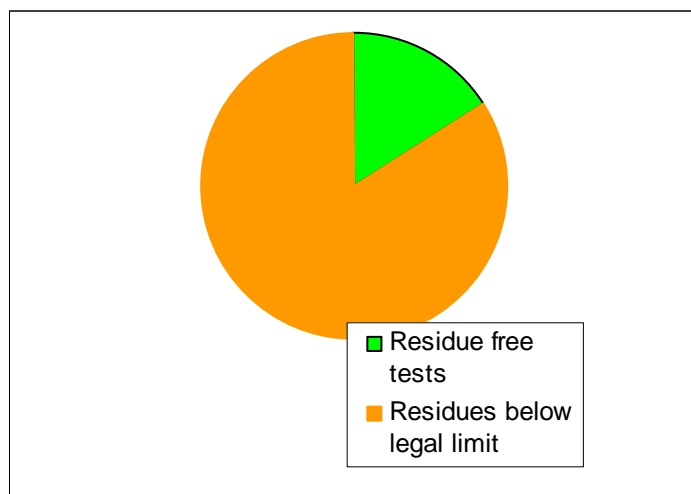

Co-operative Monitored Pesticide

Country	Produce Type	Pesticide
Spain	Lemon	Chlorpyrifos Thiabendazole Pyroproxyfen Imazalil
Spain	Iceberg Lettuce	Metalaxyl
UK	Conference Pear	Spirodiclofen Iprodione
UK	Cox Apple	Captan Chlorpyrifos
Senegal	Butternut Squash	Dithiocarbamates Chlorothalonil
Panama	Pineapple	Triadmefon Triadimenol
France	Cauliflower	Dithiocarbamates

Co-operative No restriction pesticides

Country	Produce Type	Pesticide
UK	Parsnip	Prosulfocarb Azoxystrobin
Senegal	Butternut Squash	Propamocarb
Spain	Courgette	Propamocarb
Spain	Iceberg Lettuce	Boscalid
South Africa	Seedless Grapes	Boscalid
UK	Round Lettuce	Fludioxonil Cyprodinil Azoxystrobin

February Residue levels

How Are We Doing? Jan 2011

Overall

Out of 9040 tests (at an average of 452 per product), we found 33 residues, One was above the MRL, Peruvian Asparagus, we are in the process of investigating this incident with the grower.

In total, we found residues in 12 of 20 samples, leaving 8 which were residue free.

Specific Residues

None of our banned pesticides were found.

Co-operative Prohibited Pesticides

Country	Produce Type	Pesticide
UK	Carrot	Linuron (approved derogation)
UK	Parsnip	Linuron (approved derogation)

Co-operative Monitored Pesticide

Country	Produce Type	Pesticide
France	Golden Delicious apples	Captan Chlorpyrifos Phosmet
UK	Braeburn	Captan Indoxacarb
Spain	Broccoli	Dithiocarbamates

UK	Carrot	Tebuconazole
Namibia	Grape	Dithiocarbamates
Spain	Lemon	Chlorpyrifos Imazalil Pyriproxyfen
UK	Parsnips	Tebuconazole
Kenya	Asparagus	Dithiocarbamates
Peru	Asparagus	Chlorpyrifos
Spain	Raspberries	Iprodione

Co-operative No restriction pesticides

Country	Produce Type	Pesticide
French	Golden Delicious	Boscalid Fludioxonil Flufenoxuron Pyraclostrobin
UK	Braeburn	Boscalid Myclobutanil Pyraclostrobin
UK	Carrot	Boscalid Prosulfocarb
UK	Parsnips	Azoxystrobin Boscalid Prosulfocarb
UK	Round Lettuce	Boscalid
Spain	Raspberries	Fenhexamid
